Holemaking

cut INTO

Savings with **SECO**

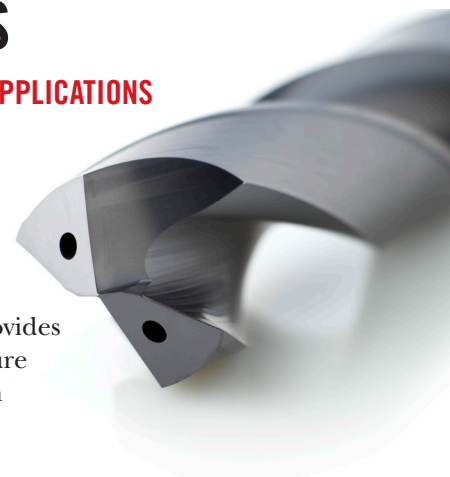

DRILL DOWN COST!

Receive **UP TO 50% OFF** the Holemaking tools you use most. Drill-down cost and metal with these time tested tools you know and trust. Hurry up and contact your Seco Authorized Distributor to order up your savings today!

FEEDMAX™ -P DRILL KITS

BOOST HOLEMAKING PERFORMANCE IN STEEL APPLICATIONS

Increase productivity up to 35% with longer tool life, all thanks to the combination of a new geometry and an advanced coating technology. Featuring strong straight cutting edges with coolant holes close by for pinpointed cutting edge cooling. Design features such as increased corner chamfers protects the drill point and provides exceptional chip control and evacuation to ensure application security, while also maintaining high productivity.

Drill more holes in a shorter amount of time and use fewer drills to do so!

TAP DRILLS - 5 x D, INCH Kits include two drills.

PERFOMAX® KITS

OPTIMIZE CHIP CONTROL

- Drill body flutes now feature a recently developed anti-friction surface or "**wave patterned technology**" to minimize the contact between chips and the flutes for higher application security.
- The strong DP3000 & T400D, square inserts offer four cutting edges for maximum application security. Superior wear resistance and edge toughness.
